

(o) Historical Example: The following table shows how the annual percentage rate and the minimum payments for a single \$10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from *(when values are measured)*. [While only one payment amount per year is shown, payments would have varied during each year.]

The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.

Year	Index	Margin	ANNUAL PERCENTAGE RATE	Minimum Payment
	(%)	(%)	(%)	(\$)
