

*The new GIS data used to determine the “Excluded” and “Designated” acreages reflect changes in ownership or more accurate characterization of ownership in the Coachella Valley since the previous data were compiled. Because of this, “Excluded” and “Designated” acreages in each column may not sum to the corresponding “Proposed” acreages, and “Excluded” or “Designated” acreages in some columns may be greater than the corresponding “Proposed” acreages.

**Roads have been removed from the “Excluded” and “Designated” acreages, due to availability of new GIS data. Because roads could not be removed from “Proposed” acreages (this data was not available until after the proposed revised critical habitat rule was published), “Excluded” and “Designated” acreages in the “Total Area” column do not sum to the corresponding “Proposed” acreages.
